## PROJECT EXPERIENCE

**GUESSCARDS** [guesscards.herokuapp.com](https://guesscards.herokuapp.com) (Solo Project) Apr 2021

- Developed web app for users to create sets of flashcards to study.
- Learned about setting up auth with json web tokens, using functional and class components in React, configuring the server to respond with different status codes, viewing/editing data on MongoDB's ATLAS
- Tech Stack: MongoDB, Express, Node, React

**WAYFARER** [the-wayfarer.herokuapp.com](https://the-wayfarer.herokuapp.com) (Group Project) Mar 2021

- Helped develop web app for users to leave reviews about popular cities.
- Learned about using request objects to pass data between view functions, using context processors to send data to all templates, using AWS to handle image uploading, creating a custom search/dropdown menu.
- Tech Stack: PostgreSQL, Python, Django

**SNIPPETS** [snippet-master.herokuapp.com](https://snippet-master.herokuapp.com) (Group Project) Feb 2021

- Helped develop web app for users to create 'snippets' of data that can be found via search bar.
  - Learned about one-to-many table relationships, pair programming, working as a team on GitHub to push and pull and resolve conflicts together, creating powerful tab-autocomplete functionality, using Flexbox inside Grid.
  - Tech Stack: PostgreSQL, Express, Node
- 

## EDUCATION

**GENERAL ASSEMBLY BOOTCAMP:** [SOFTWARE ENGINEERING IMMERSIVE](#) Jan 2021 – Apr 2021

**California State University – Los Angeles** | B.A. Art 2016 – 2019

---

## AWARDS

[Most Creative Game](#) | Mintbean.io Hackathon | May 2021

- Developed a game in one week using Phaser.js where players can shoot resumes at moving company logos.
- 

## WORK EXPERIENCE

**Sales Associate** | Big 5 Sporting Goods | Alhambra, CA 2019

- Facilitated store profits by guiding customers to desired products, recommending sales, suggesting alternatives.
- Organized 200+ new arrivals of shoe boxes by size and type on a weekly basis.
